P R E S E N T E S .

Dear comrades educators of the world, is a true honour for me to congratulate all you in today 5 October marking World teachers day, instituted by UNESCO since 1994 as a recognition of the teaching work of teachers around of the world.

A teacher is a trainer of lives, is the one who by their example and dedication form human Consciousnesses that are marked by all and each of the historical stages of the world, is therefore that teaching is framed by the different visions of economic policy that you want to n apply in each of the countries and this is the reason why the owners of the capitals see education as an instrument of domination, colonization and exploitation; the resistance of teachers around the world is clear and evident since the master has the ability to analyze critically and bold all previous aspects and any clear resistance from the guiding point of view to the working people.

Colleagues, celebrate this day from a class perspective, of struggle and dignity by the defense of education around the world, creating stronger than the steel bonds of unity and to ensure a better future for all.

FRATERNALLY.

LIC. MARIANO GARCIA.
SECRETARY GENERAL OF THE FISE.
