

24/12/2024

INVITATION FOR THE 20TH FISE CONGRESS. APRIL 5-6, 2025 IN THE CITY OF RABAT, MOROCCO

To Teachers' Organizations

Dear fellow activists,

The World Federation of Trade Unions o WFTU, the World Federation of Teachers Unions, FISE, member of the WFTU, and the National Federation of Education FNE of Morocco, have the honor to invite you to participate in the 20th International Congress of the FISE, which will be held in Rabat, Morocco, Saturday, April 5 and Sunday, April 6, 2025.

The process of escalation of the imperialist war is underway in many parts of the world. Education workers, like all peoples, are suffering the consequences of war. Thousands of dead, homeless, refugees, children without schools or teachers.

The people are facing the constant attack of capital, affected by the anti-popular policy of the governments and parties that serve it, by the problems created and aggravated by the transnational imperialist economic policy and the military union of the monopolies.

The problems of education and teachers are getting worse every day. Privatizations, non-permanent work, flexible working conditions, merging of schools, dismissals of teachers, salary cuts, intimidation, violations of trade union and labor rights, restriction of trade union and democratic freedoms, police attacks on teachers who protest, adaptation of curricula to the demands of multinationals and NATO, are some of the measures implemented by most governments on the five continents.

The content of education at all levels is adapted to the OECD decision that education is a commodity. A commodity that gives money to capital, but that seeks above all to deprive the children of the working class of the formation of a class consciousness and of the knowledge of the historical and scientific truth that inevitably strengthens the struggle against the exploitation of man by man.

In these circumstances, it is necessary to accelerate and coordinate the action of the teachers' unions in order to be able to give our own response, to strengthen the struggle for our rights, against the exploitative capitalist system. Against its supporters.

To defend the rights in terms of work, salary, insurance of teachers at all levels, free and public education for all. Demand the education that the working class needs today and tomorrow.

To defend internationalism, solidarity, collectivity, stop imperialist wars.

It is necessary to have better coordination, to share experiences, to multiply militant initiatives, to strengthen the militant spirit of all the branch organizations that belong to the great militant and internationalist family of the WFTU and the FISE. To overcome the difficulties created by the pandemic and the lack of financial resources.

To our congress, we invite all teachers' unions that defend the interests of our class, all unions that oppose the attacks on education and teachers. The 20th FISE Congress will be a democratic militant congress to elect the new leadership. We will discuss the serious problems of education workers and decide on the action plan to strengthen FISE in the next five years.

We call on all unions concerned with a better tomorrow to join us, to accompany the militant movement of teachers. Let's fight together for a better future for all of us. For a future without wars and capitalist brutality.
